## Whole Essex Information Sharing Framework

This Information Sharing Protocol is designed to ensure that information is shared in a way that is fair, transparent and in line with the rights and expectations of the people whose information you are sharing.

This protocol will help you to identify the issues you need to consider when deciding whether to share personal data. It should give you confidence to share personal data when it is appropriate to do so, but should also give you a clearer idea of when it is not acceptable to share data.

Specific benefits include:

- transparency for individuals whose data you wish to share as protocols are published here;
- minimised risk of breaking the law and consequent enforcement action by the Information Commissioner's Office (ICO) or other regulators;
- greater public trust and a better relationship by ensuring that legally required safeguards are in place and complied with;
- better protection for individuals when their data is shared;
- increased data sharing when this is necessary and beneficial;
- reduced reputational risk caused by the inappropriate or insecure sharing of personal data;
- a better understanding of when, or whether, it is acceptable to share information without people's knowledge or consent or in the face of objection; and reduced risk of questions, complaints and disputes about the way you share personal data.

Please ensure all sections of the template are fully completed with sufficient detail to provide assurance that the sharing is conducted lawfully, securely and ethically.

1.	Purpose	REFERENCES
	<p>The purpose of this protocol is to facilitate information sharing between signatory partners in the implementation of the Community Safety Partnership Strategy.</p> <p>Information sharing assists signatory partners to effectively prevent, detect and reduce crime, disorder and anti-social behaviour throughout the Basildon Borough. It is however, incumbent on all signatory partners to recognise that any information shared must be justified on the merits of each case.</p> <p>Information sharing between signatory partners is an integral part of achieving reductions in crime, re-offending and anti-social behaviour as outlined in any crime detection or reduction strategy, as it enables informed decision making and subsequent action to achieve the strategy’s objectives. However, signatory partners also have a legal duty to protect the rights of those individuals who may be affected by information sharing, hence the need for up to date, consistent and valid information sharing protocols.</p> <p>This information sharing protocol aims to facilitate the transparent exchange of crime and disorder data that is necessary, relevant, and proportionate and within the existing legislative information sharing framework between all signatory partners within the Basildon Community Safety Partnership.</p> <p>This protocol provides a range of benefits to all signatory partners enabling them to:</p> <ul style="list-style-type: none"> <li>• improve their effectiveness in tackling crime, disorder, anti-social behaviour, re-offending and hidden harms in the Basildon Borough;</li> <li>• do all that they reasonably can to reduce and prevent crime, disorder, re-offending, anti-social behaviour in the Basildon Borough;</li> <li>• reduce and prevent incidents of violent crime in the Basildon Borough, particularly those incidents that may be caused or linked to drug and alcohol misuse and gang related activity;</li> <li>• reduce and prevent incidents of domestic abuse, sexual abuse, child sexual exploitation and other violent crimes committed against the most vulnerable members of the Basildon Borough community;</li> <li>• help make the community feel assured and safe, in the knowledge that appropriate and timely information sharing between signatory partners is embedded in processes, which could lead to the potential for crimes being prevented, that may otherwise have occurred without appropriate information sharing.</li> </ul>	<p>GDPR Go to article 5</p>

## 2. Information to be shared

2. Information to be shared		
<b>Signatory Partner:</b>	<b>Information Shared:</b>	<p>GDPR Go to articles 6 - 9</p>
<p><b>Essex Police – LPA South, Basildon</b></p>	<ul style="list-style-type: none"> <li>• Incidents of:               <ul style="list-style-type: none"> <li>○ Anti-social behaviour</li> <li>○ Transport incidents</li> <li>○ Public safety/welfare incidents</li> <li>○ Burglary</li> <li>○ Criminal Damage</li> <li>○ Drug offences</li> <li>○ Fraud and forgery</li> <li>○ Robbery</li> <li>○ Sexual offences</li> <li>○ Theft and handling stolen goods</li> <li>○ Violence against a person</li> </ul> </li> <li>• Critical incidents such as high risk missing persons</li> <li>• Relative information relating to known persons identified as having links to gang activity, violence, drugs, anti-social behaviour and other criminal activity</li> <li>• Details of enforcement activity including but not limited to warrants executed, arrests etc.</li> </ul>

<b>Essex Youth Offending Service (YOS)</b>	<ul style="list-style-type: none"> <li>• Relative information relating to those young offenders identified as having links to gangs and violent crime including but not limited to: <ul style="list-style-type: none"> <li>○ Level of engagement</li> <li>○ Adherence to license conditions</li> <li>○ Interventions and support in place</li> </ul> </li> </ul>	
<b>Family Solutions</b>	<ul style="list-style-type: none"> <li>• Relative information on cases being supported by Family Solutions which have been identified as having links to criminal activity such as gangs, drug or alcohol misuse and anti-social behaviour including but not limited to; <ul style="list-style-type: none"> <li>○ Level of engagement with Family Solutions</li> <li>○ Support and interventions being offered</li> </ul> </li> </ul>	

<b>Department for Work and Pensions (DWP)</b>	<ul style="list-style-type: none"> <li>• Relative information on those cases being supported by DWP which have been identified as having links to criminal activity such as gangs, drug or alcohol misuse and anti-social behaviour including but not limited to; <ul style="list-style-type: none"> <li>○ Level of engagement with DWP</li> <li>○ Support and interventions being offered</li> </ul> </li> </ul>
<b>East of England Ambulance Service</b>	Information of relevant calls outs (including those resulting in non-attendance to hospital) with an assault or violent type injury – including date, time and location of the offence (if known)
<b>Victim Support</b>	Any relevant aggregated data

### 3. Legal Basis

*(Explain the legal power(s) you have that allow you to share the information – include how the sharing is consistent with GDPR conditions.*

**GDPR**  
Go to articles 6-14

<b>Personal Data</b>	<b>Special Categories of Data</b>
Sharing personal information in accordance with this protocol is lawful under the <i>General Data Protection Regulation 2016</i> article 6: <b>[please click and select]</b>	Sharing personal information in accordance with this protocol is lawful under the <i>General Data Protection Regulation 2016</i> article 9: (if appropriate): <b>[please complete]: [please click and select]</b>
<a href="#">Vital Interests</a>	Vital Interests
<a href="#">Legal Obligation</a>	Substantial Public Interest
<a href="#">Legitimate Interests</a>	In the public domain
<a href="#">Public Task</a>	Choose an item.

Sharing crime and disorder information in accordance with the Protocol is lawful under the following statutes:

- Section 97 of the Police Reform Act 2002
- Article 8 of the Human Rights Act 1998
- Common Law (Duty of Confidence)
- Caldicott Principles (if applicable)

The legal justification for sharing of information is derived from statutory powers, or is permitted under common law to support the policing purpose. In some cases this may be an implied power.

Fair Processing in accordance with *General Data Protection Regulation 2016* article 12 unless an exemption applies. The most likely exemption to being ‘fair’ is the sharing for the prevention and detection of crime, apprehension or prosecution of an offender.

An example of this would be where information is being shared about an individual without their knowledge; however, disclosure of that fact would be likely to prejudice the investigation.

Any organisation may request crime and disorder information from a Relevant Authority so long as that organisation can demonstrate that the data will be used to assist with achieving the overall aim of prevention, detection, and reduction of crime and disorder in the Basildon borough.

Fair processing requirements will be satisfied by each Partner to this protocol ensuring that data subjects are aware at the point of data collection that their data may be used for the prevention/detection of crime/fraud.

#### 4. Responsibilities

			<a href="#">GDPR</a> Go to articles 13-14, 24 - 31
For the purposes of this Protocol the responsibilities are defined as:	√ <b>or</b> ✕	Organisation Name(s)	
The Joint Data Controllers for this sharing are:	√ Those with managerial oversight or responsibility for information sharing under this protocol are responsible for making sure this protocol is adhered to and for ensuring all staff involved with information sharing under the ISP are provided with sufficient training and guidance to enable them to comply with the protocol.	<ul style="list-style-type: none"> <li>• Basildon Borough Council</li> <li>• Essex Police</li> <li>• Essex Community Rehabilitation Company (CRC)</li> </ul>	

		<ul style="list-style-type: none"> <li>• National Probation Service (NPS)</li> <li>• Essex County Council</li> <li>• Essex Fire and Rescue Service</li> <li>• Basildon and Brentwood CCG</li> </ul>	
In the case of <b>Joint Data Controllers</b> , the designated contact point for Data Subjects is:	√	Basildon Borough Council	

This Protocol will be reviewed one year after it comes into operation to ensure that it remains fit for purpose. The review will be initiated by Community Safety Team, Basildon Borough Council on behalf of Basildon Community Safety Partnership.

## 5. Subject Rights

GDPR Article 15 - **Subject Access** - is an individual's right to have a copy of information relating to them which is processed by an organisation.

Once information is disclosed from one agency to another, the recipient organisation becomes the **Data Controller** for that information. With regards to subject access requests, the **Data Controller** has a statutory duty to comply with article 15 of the GDPR, unless derogation applies. It is good practice for the recipient organisation to contact the originating organisation. This enables the originating organisation to advise the use of any statutory derogation that may need to be applied prior to disclosure to the requesting individual. Communication should take place speedily thus allowing the servicing of the request to take place within the Statutory 20 working days (additional 2 months for complex SARs), time period.

If a party receives a request for information under the **Freedom of Information (FOI) Act 2000** or **Environmental Information Regulations (EIR) 2004** that relates to data that has been disclosed for the purposes of this Information Sharing Protocol, it is best practice to seek advice from the originating organisation prior to release. This allows the originating organisation to rely on any statutory exemption/exception under the provisions of the FOI Act or EIR and to identify any perceived harms. However, the decision to release data under the FOI Act or EIR is the responsibility of the agency that received the request.

[GDPR](#)

Go to articles 12 – 22

Essex Partner Agencies' Information Sharing Agreements are made publicly available on the Whole Essex Information Sharing Framework website to enable compliance with article 12 of the GDPR.

GDPR Article 17 (1)(b)&(e) – **Right to be forgotten** – This right may apply where the sharing is based on consent, or where a Court Order has demanded that the information for an individual must no longer be processed. Should either circumstance occur, the receiving Partner must notify all Data Controllers party to this protocol, providing sufficient information for the individual to be identified, and explaining the basis for the application, to enable all Partners to take the appropriate action to ensure compliance with the GDPR.

GDPR  
Go to article  
17 & 19

## 6. Security of Information

Control in place	√ / x
There are good quality access control systems in place	✓
Paper information is stored securely	✓
Paper and electronic information is securely destroyed with destruction log for electronic information	✓
Laptops and removable media such as memory sticks are secured when not in use	✓
Technical security appropriate to the type of information being processed is applied	✓
Arrangements are in place to meet the requirements for confidentiality, integrity and availability	✓
Disaster recovery arrangements are in place	✓
Encryption of personal data is fully implemented	✓
Data minimisation has been considered	✓
Can pseudonymised or anonymised data be used to meet your processing needs?	X
There are sufficient access controls for systems/networks in place	✓
Routine and regular penetration tests are carried out	✓
Article 40 Codes of Conduct are adhered to (where applicable)	✓
Appropriate security is applied to external routes into the organisation; for example, internet firewalls and remote access solutions	✓

GDPR  
articles 30 -  
45

In addition to non-personal statistical information, personal information that may be shared under the Protocol, must be assessed on a case-by-case basis and may include:

- a) Personal details necessary to ensure the accurate identification of information subjects such as name, address (including postcode), age, occupation/school and identification of immediate family;
- b) Information about past or current activities, such as places frequented and associates, to enable research or surveillance of the data subject thus informing decision making about action to be taken to prevent or deter suspected offending;
- c) Offending history relevant to the purpose for which it is being shared which is necessary in order to assess likelihood of

- offending and to carry out risk assessment for the various agency practitioners who might be involved;
- d) Professional opinions, which are necessary to inform decision making around likelihood of offending and the assessment of risks to individuals. Any such information will be clearly marked that it is an opinion and where possible on what basis the opinion was formed.

From time to time specific crime reducing initiatives, focusing on particular crimes or groups of offenders, may be required. Examples may include 'Hate Crime', 'Domestic Abuse', 'Sexual Violence', 'Anti-Social Behaviour', 'Integrated Offender Management', 'Child Sexual Exploitation' and 'Gang and Youth Violence'. This protocol covers such initiatives if their purpose is to reduce crime and disorder, irrespective of whether the initiative is local, county or central Government led.

Partners receiving information will:

- Ensure that their employees are appropriately trained to understand their responsibilities to maintain confidentiality and privacy;
- Protect the physical security of the shared information;
- Restrict access to data to those that require it, and take reasonable steps to ensure the reliability of employees who have access to data, for instance, ensuring that all staff have appropriate background checks
- Maintain an up to date policy for handling personal data which is available to all staff
- Have a process in place to handle any security incidents involving personal data, including notifying relevant third parties of any incidents
- Ensure any 3<sup>rd</sup> party processing is agreed as part of this protocol and governed by a robust contract and detailed written instructions for processing.

## 7.

### Format and Frequency

There are five main formats the information will be shared in, with variations possible for each, and often an ISA will include more than one format:

- At a meeting – a formal meeting (with terms of reference, agenda etc.) is held to which partners are invited. The partners attend with their information likely to be of interest to partners. At the start of the meeting a confidentiality statement is accepted and signed. During the course of the meeting partners disclose relevant information to one another.
- Request and Response – one partner approaches another to request information it believes the partners holds. This could be via telephone, secure email or recorded letter.

- Self-Service – one partner permits another partner to have direct access to their information (usually an IT system) and the recipient partner obtains the information through that process.
- Central Controller – the partners choose a central co-ordinator to whom information is disclosed. The central co-ordinator then uses the judgement to share information to partners where appropriate to do so. The central co-ordinator could also enquire with partners whether they had specific information relevant to a particular issue that there were prepared to share.
- Automated IT System Generated Information – one partner’s IT system send automatic notifications or relevant information to another partner and vice-versa.

The information may only be processed for the purpose/s set out in this protocol.

Signatory partners to this arrangement will respond to any notices from the Information Commissioner that imposes requirements to cease or change the way in which information is processed.

<b>8.</b>	<b>Data Retention</b>	
<p>Information will be retained in accordance with each partners’ published data retention policy and in any event no longer than is necessary. It is the responsibility of the signatory partners to make others aware of such policies if deemed appropriate.</p> <p>Signatory partners should ensure, when sharing information that the information is communicated in a manner that is confidential (i.e. emails, or paper copies that are marked “confidential – to be opened by addressee only). Fax machines are not a secure way of transmitting and sharing information between organisations and should not be used.</p> <p>Disposal of confidential information should be disposed of through the use of cross-cut shredding machines or returned securely to the original sharing partner.</p>		<p><a href="#">GDPR</a> Go to article 5</p>
<b>9.</b>	<b>Data Accuracy</b>	
<p>Basildon Community Safety Partnership and individual signatory partners are responsible for ensuring that any information they share is accurate and where necessary, kept up to date.</p> <p>All records must be authentic and reliable. An authentic record is one that can be proven:</p> <ul style="list-style-type: none"> <li>• To be what it purports to be</li> </ul>		<p><a href="#">GDPR</a> Go to articles 5, 16 - 18</p>

- To have been created or sent by the person purported to have created or sent it, and
- To have been created or sent at the time purported

A reliable record is one whose contents can be trusted as a full and accurate representation of the transactions, activities or facts to which they attest and can be depended upon in the course of subsequent transactions or activities.

Each partner must have in place a record keeping system that documents its activities and allows for quick and easy retrieval of information. This must include:

- Classification of records into a logical and consistent hierarchy
- Allocation of appropriate metadata consistent with the Government Metadata Framework
- Consistent version control procedures
- Appropriate security classification of records in accordance with partners own classification schemes
- Clearly documented authorship and ownership of records
- Usability and integrity of records

Usability implies that a record can be ‘located, retrieved, presented and interpreted’.

Integrity refers to a record being complete and unaltered. Records must be protected against unauthorised alterations by means of good security practice (e.g. access permissions) and authorised alterations to records must be traceable, as well as being explicitly indicated through version control.

<b>10.</b>	<b>Breach Notification</b>
------------	----------------------------

Where a security breach linked to the sharing of data under this protocol is likely to adversely affect a data subject, Partners are required to inform all involved Partners within 48 hours of the breach being detected. The email addresses on page 1 should be used to contact the Partners. The decision to notify the ICO can only be made after consultation with any other affected Partner to this protocol, and notification to the ICO must be made within 72 hours of the breach being detected. Where agreement to notify cannot be reached within this timeframe, the final decision will rest with the Protocol owner as depicted on page 1 of this document.

All involved Partners should consult on the need to inform the Data Subject, so that all risks are fully considered and agreement is reached as to when, how and by whom such contact should be made. Where agreement to notify cannot be reached, the final decision will rest with the Protocol owner as depicted on page 1 of this document.

**GDPR**  
Go to articles 33, 34, 77 - 84

<p>All Partners to this protocol ensure that robust policy and procedures are in place to manage security incidents, including the need to consult Partners where the breach directly relates to information shared under this protocol.</p> <p>A processor is liable for any damage caused by processing, only where it has not complied with obligations of the GDPR specifically directed to processors or where it has acted outside or contrary to lawful instructions of the controller.</p>		
<p><b>11.</b></p>	<p><b>Complaints</b></p>	
<p>Partner agencies will use their standard organisational procedures to deal with complaints from the public arising from information sharing under this protocol.</p>		<p>GDPR Go to articles 16 – 22 &amp; 77</p>
<p><b>12.</b></p>	<p><b>Commencement of Protocol</b></p>	
<p>This Protocol shall commence upon date of the signing of a copy of the Protocol by the signatory partners. The relevant information can be shared between signatory partners from the date the Protocol commences.</p>		
<p><b>13.</b></p>	<p><b>Withdrawal from the Protocol</b></p>	
<p>Any partner may withdraw from this Protocol upon giving 4 weeks written notice to the WEISF administration team <a href="mailto:weisf@essex.gov.uk">weisf@essex.gov.uk</a>. The WEISF administration team will notify other Partners to the Protocol. The Partner must continue to comply with the terms of this Protocol in respect of any information that the partner has obtained through being a signatory. Information, which is no longer relevant, should be returned or destroyed in an appropriate secure manner.</p>		

**14.****Agreement**

This Protocol must be approved by the responsible person within the organisation (SIRO/Caldicott Guardian/Chief Information Officer).

Approver Name	Margaret Lee – Executive Director/SIRO Helen Lincoln - Executive Director/Caldicott Guardian
Organisation Name	Essex County Council
Date of Agreement	26/10/2018

**Managerial oversight:**

Identified below are those with managerial oversight in the Responsible Authorities (as set out in Section 5(1) of the Crime and Disorder Act 1998) with responsibility for information sharing under this protocol. Those named are responsible for making sure this protocol is adhered to and for ensuring all staff involved with information sharing under the ISP are provided with sufficient training and guidance to enable them to comply with the protocol.
